

Updating Region – eScription-One Mobile for Android

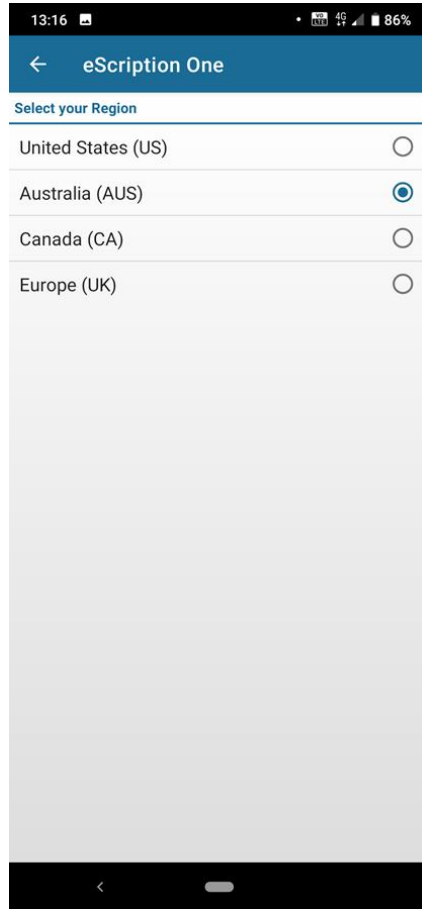

1. Open Escription-One Application. Ensure that the application version is at least 2.5.7 as noted in the below screenshot. If the application version is not at least 2.5.7, please update via the Google Play store.

2. Select the settings icon in the top right corner of the application as noted in the above screenshot, to open the region selection menu.

3. The region selection menu will appear as in the below screenshot.

- If the Australia (Aus) region is **not** selected, choose this option to apply the Australian region setting. The menu will close automatically when the new setting is applied.
- If the Australia (Aus) region **is** selected, you can hit the Back Arrow at the top left of the window to close this menu as the setting is already applied.

4. You can now login to the application using your usual username, password and client details.
